

# Mackenzie Surovik

**Concept Artist / 2D Background Artist / Layout Design /  
Illustrator**

I am an artist that can go from a paint brush to a computer. Animation films, cartoons, and video games have always brought me joy. My goal in life is to pay it forward and help bring joy to children and to the young at heart. The entertainment industry helped me get through a lot over the years caused by the many misconception of my capabilities as a female on the spectrum. However, the art world is where I have always thrived. I can take any idea, create a vision, and show you a whole new world.

## Education
